nikobeach.com is a selection of professional furniture and shades designed for heavy use and specific for public beaches, resorts, water parks and swimming pools.

Extremely durable, made with high quality materials, our products are designed to withstand use in extreme conditions, exposure to direct sunlight and contact with sea water.

Though initially more expensive, our sun umbrellas and outdoor furniture are built to last with regular maintenance and designed to be more reliable over time being a more cost effective option.

OUR FACTORIES

100% MADE IN ITALY

Every single part of our professional products is 100% made in Italy starting from pure, high quality raw materials. Plastic molding, fabric weaving, aluminum cutting and welding, final hand-assembling and checking by skilled operators are entirely done inside our facilities.

Located between Cesena and Pesaro on the northern Italian Adriatic coast, we are supplying Rimini Riviera professional operators since 1948 and now spreading top quality beach and swimming pool equipment all over the world.
